December 3, 1998

Mr. Mike Stogner  
Oil Conservation Division  
2040 South Pacheco Street  
Santa Fe, New Mexico 87505

Dear Mr. Stogner:

Mallon Oil Company is requesting an unorthodox location for the Jicarilla 459-17 No. 11 (1188' FSL and 1603' FEL, SW SE, Unit D) Sec. 17, T30N-R03W, Rio Arriba County, New Mexico.

Mallon Oil company is the only offset operator to the acreage involved. Topography is the main cause for the placement of the well site. The location was changed at the onsite because the original staking of the well placed it on a steep slope that a severe cut and fill would have been required for the location as well as the access road. Also, the Game and Fish department requested that operators keep off of ridge areas. Additionally it was desirable to place the location to the Northwest of the original location placing the well in sage brush area to avoid extensive tree removal.

Please contact me at (970) 382-9100, if any additional information is needed.

Sincerely

A handwritten signature in cursive script that reads "Christy Serrano".
