13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

This well was TA'd 10/14/00 and Phillips wishes to keep the current TA status until the tests we are running on the 31-6 Unit can be run and evaluated. We will be testing the Ojo Alamo and Nacimiento intervals for gas production and if they are successful we will be attempting to add the same to this well. If the tests prove unsuccessful we will be P&Aing this well as previously stated and we will be submitting the NOI with P&A details. Plans are to conduct this test on the 31-6 Unit well in August and hopefully by late fall have enough data to deem the test successful or not.

THIS APPROVAL EXPIRES JAN 01 2003
