Re: *Application for administrative approval dated December 17, 1999 (received by the Division on December 22, 1999) for Phillips Petroleum Company ("Phillips") to drill its proposed San Juan "30-5" Unit Well No. 265 at an unorthodox coal gas well location within a standard 320-acre gas spacing and proration unit in the Basin-Fruitland Coal (Gas) Pool comprising the E/2 of Section 10, Township 30 North, Range 5 West, NMPM, Rio Arriba County, New Mexico.* G

Dear Mr. Prather:

The Division's review of this application shows that Phillips applied for and received authorization from the U. S. Bureau of Land Management ("BLM") to drill a coal gas well at a standard location within the E/2 of Section 10 [see attached *Application for Permit to Drill* ("APD")] and BLM correspondence regarding Phillips' San Juan "30-5" Unit Well No. 222 (API No. 30-039-25036) to be located 1831 feet from the North line and 816 feet from the East line (Unit H) of Section 10] in 1990. In 1992 the BLM rescinded this APD because Phillips had not drilled the well. Since topography in the E/2 of Section 10 will allow for a standard coal gas well location, this application is therefore denied.

Another solution in this instance is to reorient your proposed spacing unit from a stand-up 320 to a lay-down 320.

Sincerely,

Michael E. Stogner
Chief Hearing Officer/Engineer

Gentlemen:

Enclosed is your Application for Permit to Drill (APD) well No. 222 San Juan 30-5 Unit, NE $\frac{1}{4}$ Section 10, T. 30 N., R. 5 W., Rio Arriba County, New Mexico, lease SF-078997. The subject APD is rescinded and returned due to drilling not being commenced within one year of the approval date.

You are required to request surface rehabilitation instructions from this office if construction activities occurred on the referenced drill site. If this office does not receive comment within 30 days, we will presume that no construction occurred and proceed accordingly. Later discovery that construction activities have in fact occurred, may result in assessment of liquidated damages.

Sincerely,

/s/ John L. Keller

WELL LOCATION AND ACREAGE DEDICATION PLAT

All Distances must be from the outer boundaries of the section

Operator PHILLIPS PETROLEUM			Lease SAN JUAN 30-5 UNIT		Well No. 222
Unit Letter H	Section 10	Township T.30 N.	Range R.5 W.	County RIO ARriba COUNTY	
Actual Footage Location of Well: 1831 feet from the NORTH line and 816 feet from the EAST line					
Ground level Elev. 6711	Producing Formation Fruitland		Pool Basin Fruitland Coal		Dedicated Acreage: 320 Acres

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.

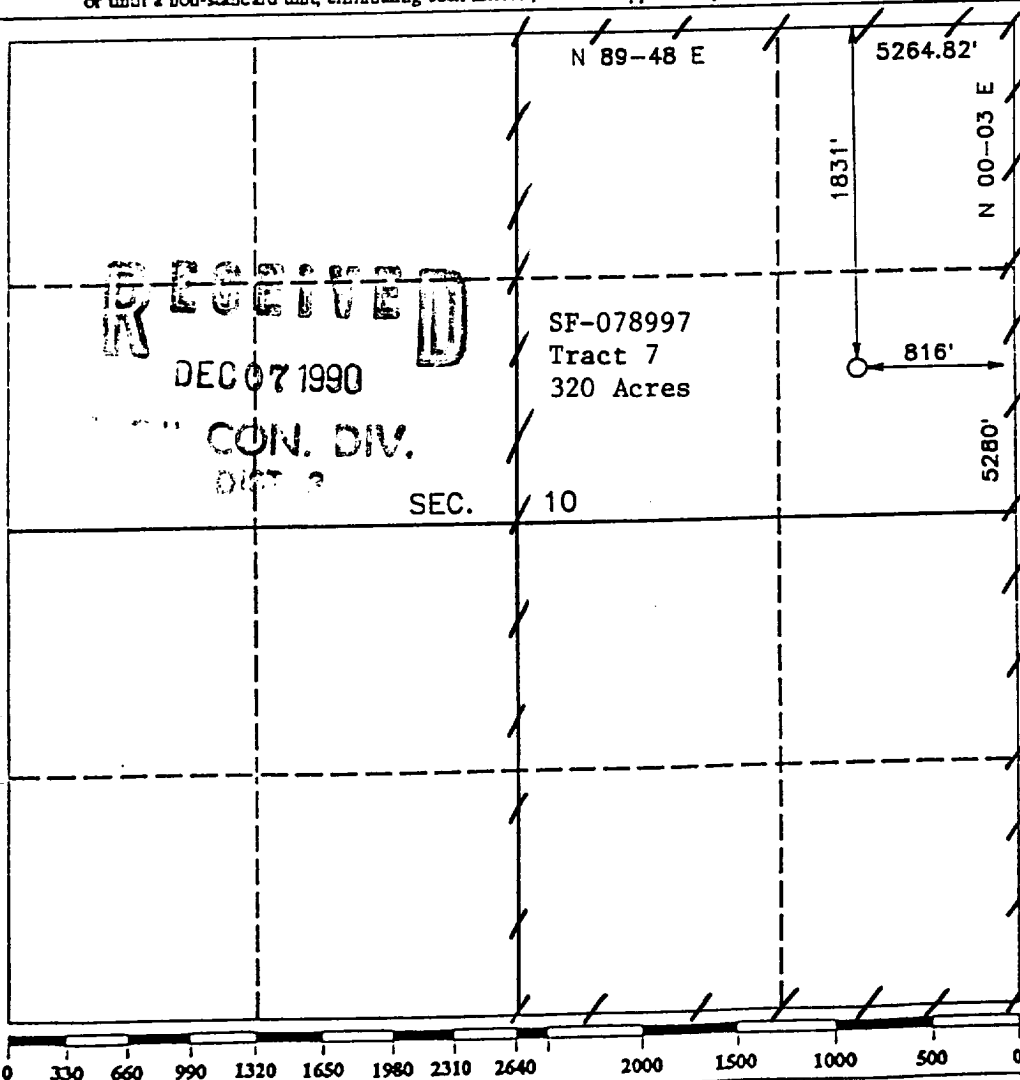

2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).

3. If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communization, unitization, force-pooling, etc.?

☒ Yes ☐ No If answer is "yes" type of consolidation Unitization

If answer is "no" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interest, has been approved by the Division.
