13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

A CBL log was run on the subject well. The Gallup is currently segregated from the Mesaverde and Dakota formations and will not require remediation (per Steve Mason, BLM). Since this is a wintering well, the Mesaverde completion will be done in the spring or summer of 2002'. Before the Mesaverde is completed, Burlington Resources will shoot 2 squeeze holes @ 5220' and establish circulation up to backside to surface. Cement will be pumped 200' into the 7" intermediate casing to 3258' w/50% excess. Cement volume will be 210 sacks Class "G" 50/50 poz with additives with a yield to 1.44 cu.ft. per sack. Once the cement work has been completed, a cement bond log will be run and evaluated.

At the time the well is permanently abandoned, the Gallup will need to be squeezed. (Currently this well has cement from total depth to 7140' and 5260-5580' with the DV tools @ 5571' and the 7" intermediate shoe at 3458').

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #9189 verified by the BLM Well Information System
For BURLINGTON RESOURCES OIL & GAS, sent to the Farmington
Committed to AFMSS for processing by Lucy Bee on 11/26/2001 ()
