Re: George E. Willett  
SDD Willett #2  
SW/4 Sec. 31-29N-11W

Gentlemen:

In December 1962, we received copies of a federal form 9-330 showing that the above well was drilled to the Pictured Cliffs formation, was cased with 4½ inch casing, and that a completion was attempted in the Pictured Cliffs zone. The operator did not indicate the potential of the well, but did indicate that it had been temporarily abandoned and it was his intention to rework the well later.

Do you have any further information relating to when the operator intends to re-work this well or permanently plug and abandon it? We will appreciate receiving any information that you have on this matter.

Yours very truly,

Emery C. Arnold  
Supervisor, District #3
