17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The Callow Federal #2 (Totah Gallup) has been producing in prior years as part of a water flood. Since we are expecting further production from the water flood, we request permission to temporarily abandon this well. This will prevent prematurely shutting off production.

Provide for the installation of a bridge plug or a 50 foot cement plug no more than 50 feet above any open perforations and the well bore filled with conditioned, non-corrosive fluid and shut-in at the surface.

Approval Valid for 1 year from date approved.

18. I hereby certify that the foregoing is true and correct
