13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

We request permission to temporarily abandon Well No. 66 for further use in ongoing redevelopment project.

In order to retain the well bore utility of this well for future development in the Phase II area (SE 1/3 of the unit), we request permission to temporarily abandon this well. We anticipate to have the Phase I (center 1/3 of the unit) finished by the end of April and begin injection by May. This TA would allow sufficient time to evaluate the results of this infill drilling program.

See attached procedure.
