* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text suggests that organizations should implement robust systems to track and document every aspect of their operations.

2. The second part of the document addresses the challenges associated with data management and security. It highlights the need for strong cybersecurity measures to protect sensitive information from unauthorized access and breaches. The author argues that organizations must invest in advanced security technologies and protocols to ensure the integrity and confidentiality of their data.

3. The third part of the document focuses on the role of technology in modern business operations. It discusses how digital tools and platforms can streamline processes, improve efficiency, and facilitate communication. The text encourages organizations to embrace innovation and leverage technology to gain a competitive edge in the market.

4. The fourth part of the document explores the importance of human resources and talent management. It stresses that organizations should prioritize the recruitment, development, and retention of skilled professionals. The author suggests that creating a supportive work environment and offering opportunities for growth and advancement are key to attracting and motivating top talent.

5. The fifth part of the document discusses the impact of external factors on business performance. It mentions the influence of economic conditions, market trends, and regulatory changes. The text advises organizations to stay informed about these external factors and adapt their strategies accordingly to mitigate risks and seize opportunities.

6. The sixth part of the document concludes with a summary of the key points discussed. It reiterates the importance of maintaining accurate records, ensuring data security, leveraging technology, managing human resources, and staying adaptable to external changes. The author encourages organizations to continuously monitor and improve their operations to achieve long-term success.
