Section 34, T. 29 N., R. 9 W.  
San Juan County, New Mexico

Attached is Form C-104, Request for Gas Allowable, covering Helen Jackson No. 1 in the Blanco Mesaverde field. This well was recently repaired by cementing the old shot hole, re-drilled to 4550, running 4-1/2" casing from surface to T.D., perforating and sand fracing the Mesaverde section.

The repair was completed November 17, 1964, and was reconnected November 25, 1964, by Southern Union Gathering Company for the first day of conditioning period for the new deliverability test.

Yours very truly,

TENNECO OIL COMPANY
