Gentlemen:

Re: Florance No. 42
Section 27, T. 29 N., R. 9 W.
San Juan County, New Mexico

Attached is Form C-104, Request for Gas Allowable, covering Florance No. 42 in the Blanco Mesaverde field. This well was recently repaired by cementing the old shot hole, re-drilling to 4600, running 4-1/2" casing from surface to T.D., perforating and sand fracing the Mesaverde section.

The repair was completed November 3, 1964, and was reconnected November 9, 1964, by Southern Union Gathering Company for the first day of conditioning period for the new deliverability test.

Yours very truly,

TENNECO OIL COMPANY
