Dear Sir:

2-28-70 I

We respectfully request that we be granted an extension to the 45-day period following pipeline connection in which an initial deliverability test can be submitted for the Davis Gas Unit "F" No. 1, a Basin Dakota well.

This well, from which the gas is being sold to Plateau Refinery in Bloomfield, has recently experienced freezing problems which interrupted the flow period. We believe this difficulty has now been corrected and representative flow data will be obtained shortly.

Thank you for your consideration in this matter.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION
