It is of the greatest importance to have a complete history of the well. Please state in detail the nature of the formation, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any pumps or plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
