Amoco Production Company attempted to do a simple cleanout of this well bore and discovered that there was excessive bradenhead pressure. Our field operations notified Mr. Wayne Townsend of the BLM and was given verbal approval to make the necessary repairs on June 16, 1995. A subsequent sundry is attached detailing the repair procedures.

If you have any technical question please contact Mark Yamasaki at (303) 830-5841 or Gail Jefferson from any administrative concerns.
