Subject: Request for Extension to  
Delinquent Date  
Lefkovitz Gas Unit No. 1-X

Mr. Emery C. Arnold  
New Mexico Oil Conservation Commission  
120 East Chaco  
Aztec, New Mexico

Dear Sir:

Our recently completed Lefkovitz Gas Unit No. 1-X, Unit A, Section 25, T29N, R10W, Aztec-Pictured Cliffs Field, San Juan County, was tied in to the purchasing pipeline company on September 11, 1957. Initial deliverability was scheduled for the period September 16 - October 15, 1957. The purchasing pipeline company was unable to shut the well in at the scheduled time, hence the shut-in period was moved ahead one week.

In view of this late scheduling, we would appreciate being granted a 15-day extension to the regular 45-day period allowed for submitting the test form.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION

  
L. O. Speer, Jr.  
Field Superintendent
