Gentlemen:

The Oil Conservation Division hereby approves
the above-referenced one-well plugging bond
effective November 30, 1982.

Because of the great amount of infill drilling
in the state, the Oil Conservation Division now
requires that all one-well plugging bonds give the
exact footage description, example: 660 feet from
the North line and 660 feet from the East line.
We would appreciate, therefore, your issuing a rider
to this bond with the footage location.

Sincerely,

JOE D. RAMEY,
Director
