Durango, Colorado*

Gentlemen:

At your request we have certified the following facts from New Mexico Oil Conservation Commission files:

The Francis L. Harvey and Capital Counsellors #1 ~~Bunce~~ Federal well located in Unit G, Section 19-20N-10W was spudded February 24, 1952 and completed April 11, 1952 as a producing gas well in the Aztec Pictured Cliffs Pool. The Open Flow Potential was 987 MCF and the well was connected to El Paso Natural Gas Company pipeline on July 9, 1952. It has produced continuously since that time.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*
