The elevation of the ~~drilling~~ **ground level** above sea level is **5123** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On September 22, 1956, this well was spudded and on September 23, 1956, 7" casing was landed at 57' and cemented with 35 sacks cement. After waiting on cement for four days, bailing test proved successful. Drilling operations were resumed.

On September 30, 1956, 3" pipe was set at 761' and cemented with 150 sacks cement. After waiting on cement for 35 hours, plug was drilled and completed at 765'.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be continued.
