B-21-29N-11W

Dear Kathy:

The plugging of the subject well was delayed to allow the owner another chance to evaluate the acreage.

There has been a delay of more than six months, which I consider ample time to evaluate a property.

Please advise your client that we plan to make demand upon your company to perform the work if the plugging is not completed by February 23, 1979.

If there are questions, please call.

Yours very truly,

A. R. Kendrick
District Supervisor
