B-21-29N-11W

Dear Ms. Teschendorf:

Order R-5682, entered April 4, 1978, required the subject well to be plugged and abandoned or placed on production before June 15, 1978.

I offered some delay to allow for property evaluation and because of very inclement weather conditions. More than ample time has passed for these considerations.

Please let a contract for the proper plugging of the well. A copy of an approved form C-103 showing the plugging procedure is attached.

If there are questions please call.

Yours very truly,

A. R. Kendrick
Supervisor, District #3
