13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We intend to try to re-complete this well in the Fruitland Coal Formation. We tried to restore this well by putting on a compressor and having a new meter installed. After two months the well did not respond and was shut down and the compressor was removed on 7/29/96.

We will need to create a new production unit with the other producers. The unit will be either the E/2 or the N/2 of Sec. 24-29N-12W.

We request a 120 day extension to start this conversion from a Pictured Cliffs well to a Fruitland Coal well.
