Re: Tycksen #1 Well, A-23-29N-13W

Dear Mr. Smith:

In November of 1988 NMOCD Order R-8769 (see attached), required all Fruitland completions to have new C-102 forms submitted to state whether they were coal or sand. To date we have not received a new C-102 on the referenced well, designating the completion as sand or coal. In the case of a Fruitland Sand completion, it is a simple matter of adding the word Sand after Fruitland in the Pool name, ie Kutz, West-Fruitland Sand, but you will, as the agent, have to do this on a new C-102. I cannot make the change.

If you have any questions please contact me at 334-6178.

Yours truly,

Ernie Busch
District Geologist
