Re: Ruth P. Madden, Salmon #1-X, M-15-29N-11W

Dear Ms. Madden:

Mr. Lowell Parrish, District Superintendent of El Paso Natural Gas Company in Farmington called me today and related his conversation with you concerning difficulties you have had in filing proper reports for the above well. He requested that I write you and explain what is necessary to be done insofar as our department is concerned. He also suggested that you might be able to contact either Wayne Hare or Alex Hare of Bloomfield who live on the property and use gas from this well and see if you could not make arrangements with one of them to act as your agent in keeping the well on production and in filing your reports.

Actually the only report we have been missing is Form C-115, Operator's Monthly Report, which is required to be filed by the end of each month showing the previous month's production. I am enclosing a sample copy made out for your well. As this form has not been filed for a number of months, I would suggest that you fill out one form showing the number of months the well has been shut-in with production zero. We will then release your well so that production may be resumed. The volume of gas produced each month will be furnished to you or your representative by El Paso Natural Gas Co.. One copy of Form C-115 should be addressed to our office at 1000 Rio Brazos Road, Aztec, New Mexico 87410, one copy to the Oil Conservation Commission, Box 2088, Santa Fe, New Mexico 87501 and one copy to the gas purchaser, El Paso Natural Gas Co., Box 990, Farmington, New Mexico 87401.

We will be glad to assist you in any way possible to keep your reports current so that the well may be kept on production.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
