Re: Emergency work on the Culpepper #1 well,
located M-16-29N-13W.

Dear Connie:

Emergency work was required on the Culpepper #1 well, after Big A Well Servicing Company breached their plugging contract.

The following work was performed:

Verbal bids were obtained to cap the casing to prevent anything from being thrown into the well bore and so that the surface could be restored to its original condition. Navajo Oil Field Service performed the work at \$35.00. Two other bids were obtained from Sirocco, Inc. at \$37.50 and Chick Welding Service at \$60.00.

All bids were verbal.

Sincerely,

Ernie Busch
Geologist/Deputy Oil & Gas Inspector
