Re: Culpepper #1 *M-71-25-10*

Dear Mr. Coleman:

As per our recent conversation, our agreement on the referenced well was that the Oil Conservation Division would pay for digging around the existing casing to a depth of 12+' and filling around the casing with concrete. After that, Big A would return to the well and complete the contract.

If this is your understanding also, we will get started immediately.

Sincerely,
