Dear Sir:

Attached is a request by Continental Oil Company for an extension of MFO 554, which provided for gas flaring from the Continental Fruitland Navajo No. 2, Unit P, Section 13, T29N, R15W, San Juan County, New Mexico. This order provided an exception to Order No. R-2103, which regulates gas flaring in the Cha Cha Gallup Pool.

Please advise if any additional information is required.

Very truly yours,

Subject: Application of Continental  
Oil Company for Exception to  
Order No. R-2103 Prohibiting  
the Flaring of Casinghead Gas  
in the Cha Cha Gallup Pool,  
for its Fruitland Navajo Well  
No. 2, San Juan County, New  
Mexico

Gentlemen:

Continental Oil Company hereby requests an exception to the  
No-Flare provisions of Order No. R-2103 and submits the following in-  
formation in support thereof:

1. Lease:

Fruitland Navajo (Federal), T29N, R15W, San Juan County, New Mexico.

2. Well Name and Location:

Fruitland Navajo Well No. 2, SE/4, SE/4, Unit Letter P, Section 13,

6. Reason for and duration of exception desired:

Because of the small volume of casinghead gas available and the two miles of gathering line that would be required for a sales connection, a gas tie-in to the Fruitland Navajo No. 1 cannot be economically justified. Practically all of the produced gas is being utilized to supply the gas engine which drives the pumping unit on the well. Exception is requested for an indefinite period or until such time that casinghead gas from the lease is increased.

7. Remarks:

The Jalou Gas Company, which is the nearest gas gathering facility in the area, has presented us a letter stating that the said connection cannot be justified. A copy of the letter has previously been sent to the New Mexico Oil Conservation Commission.

Affidavit:

I hereby certify that the information given above is true and complete to the best of my knowledge.
