

STATE OF NEW MEXICO
OIL CONSERVATION COMMISSION
1000 Rio Arriba Road
November 19, 1962

TO: All Operators, District #3

From: New Mexico Oil Conservation Commission
1000 Rio Arriba Road, Aztec, New Mexico

The enclosed list includes all prorated gas wells operated by your company in District Number 3, which were connected to a pipeline prior to November 1, 1962. The wells are arranged in order of Unit, Section, Township and Range, without regard to pool.

Individual listings are in the following order: Well Number; Unit; Section; Township; Range; Well Status; Pressure Factors; Lease Dates; Operators; Pool; Transporter; and 1962 Deliverability as taken from Commission files. If a 1962 test was not on file on November 18, 1962 "NT" is entered in the Deliverability column. Wells classified as "IL" or "IN" are exempt from testing unless you have been notified otherwise.

This list is being mailed to you for the purpose of advising you what Commission records reflect as of November 18, 1962 regarding the status of the 1962 testing schedule. Please check the list for accuracy as soon as possible and return either the list showing corrections or return the statement below if our records agree with yours.

To: New Mexico Oil Conservation Commission

We have checked the list of prorated wells operated by our company in District #3 showing 1962 Deliverabilities and find it accurate in all respects.
