Dear Sir:

Reference is made to your letter of December 22 regarding the formation of a 160-acre drilling unit for the Basin Company #1 Paces well in Unit P, Section 18-29N-13W.

Please submit to this office two copies of communitization and pooling agreements, along with an amended Form C-128, Acreage Dedication Plat in triplicate.

Upon receipt of the above information we will amend your allowable.

Yours very truly

Emery C. Arnold
Supervisor, District #3

Mr. Emery C. Arnold
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Arnold:

At the time this well was drilled, we did receive permission from you to produce from 120 acres non-standard unit.

However, the entire 160 acres have been pooled to the well.

Kindly advise where I would send copy of pooling agreements and communitization agreements, in order to rectify the acreage factor.

Sincerely yours,

Ted M. White

the normal adult mean (range 100–140 mmHg).

[illegible]

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion. The number of people aged 65 and over is expected to increase from 200 million to 400 million. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific information required.

1. The first part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a cursive script, and the addresses are listed below them.

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Arar and Collins (1971) using a Shimadzu 1601 UV-Visible Spectrophotometer. The concentration of chlorophyll was expressed in $\mu\text{g mL}^{-1}$.
