Att: Mr. William C. Russell

Dear Mr. Russell:

We are returning your Form C-122-B on your #1 Hardie well. As I understood Mr. Macey's conversation with you you were to estimate a deliverability from your chart after a week's production and submit this in lieu of Form G-122-Ba. I do not believe that he meant you were to estimate an open flow.

I would suggest that you get hold of Bill Richardson of Southern Union Gas Co. and see if you can secure a chart for purposes of estimating a deliverability.

Yours very truly
