Re: Application for Dual Completion  
Ransom Well No. 1 I-13-29N-11W

Dear Sir:

The application for administrative approval to dually complete Ransom Well No. 1 is returned to you for correction and additional information. The operator identified as D. W. Stiles, on said application, submitted a plugging bond covering Ransom No. 1 with the operator listed as Woodrow Stiles. All forms pertaining to Ransom #1 shall be submitted with operator listed as same person or company as carried on the bond.

When resubmitting the application, please refer to Rule 112-A of the New Mexico Oil Conservation Commission Rules & Regulations including all data requested therein. Inasmuch as you desire to complete the well utilizing a single string of tubing with the upper zone being produced by annular flow, the application cannot be processed administratively unless accompanied by data requested in enclosed Memo 18-59.

No action will be taken, in any event, until this office has received a Form C-110 showing the change in ownership of Ransom Well No. 1.

Very truly yours,

J. E. KAPTEINA  
Engineer
