Attention: Mr. E. C. Arnold

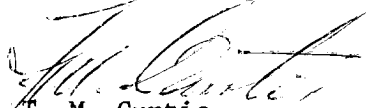

Gentlemen:

Attached are revised Forms C-128 for Pan American Petroleum Corporation's Roberts Gas Unit "B" No. 1, Basin Dakota Field, which reflects dedicated acreage of a standard 320 acres for the E/2 of Section 14, T-29-N, R-13-W, to replace the previously submitted Form C-128 consisting of a non-standard 163-acre unit. This original non-standard unit was approved by New Mexico Oil Conservation Commission Order No. R-2167 (Case No. 2474) for a six months period, ending July 17, 1962, and was extended to October 17, 1962 by Order No. R-2167-A.

A voluntary standard 320-acre Dakota unit communitization agreement has been reached by all operators in the E/2 of Section 14 and filed for record in San Juan County. Pan American Petroleum Corporation wishes to thank the New Mexico Oil Conservation Commission for their cooperation and tolerance in this matter by permitting the above non-standard unit at the time that the well was drilled, with subsequent extension in time as requested, so that satisfactory agreements could be reached without compulsory pooling.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION
