13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It has come to the attention of Harken Southwest (HSW) personnel that somewhere down the chain of operators records have mistakenly reflected HSW as the operator.

Please note the attached map shows HSW's acreage position in Section 12 outline with a dash. The Navajo #151 is outside of this acreage. Therefore **HSW is NOT the operator** of the #151 wellbore.

Please change all records to reflect the correct operator and remove HSW as the operator.
