17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This is to follow-up report dated 7-19-85. The decision has been made to do remedial work on this well, but due to lack of gas market, which we are attempting to obtain, we plan to delay the remedial work until a market is obtained.

The remedial plans are to complete the well in the Dakota formation.
