Farmington, New Mexico

Re: Grossman & Pettus #1 Oliver
Stock, O-1-29N-10W

Gentlemen:

Our records indicate this well was spudded August 3, 1961 and that surface and production casing was set and cemented and the well was sand-oil fractured. An allowable has never been requested and the Well Record Form, C-105 has not been filed.

Will you please submit Form C-103 indicating present status of this well. If operations have been completed also submit Form C-105 in order that plugging instructions may be issued if necessary.

Yours very truly

Emery C. Arnold
Supervisor, District #3
