Mr. Fred Mares  
New Mexico Oil Conservation Commission  
Box 2088  
Santa Fe, New Mexico

Dear Mr. Mares:

Re: Your phone conversation with Ben Boyd  
during December, 1966

The Howell J #3X, Blanco Mesaverde Well, located B 11-30-8, was first delivered December 28, 1966.

This well is producing from the same acreage dedication as the Howell J #3, which was disconnected January 10, 1967, and replaces the Howell J #3, which is no longer a producing well.

The Howell J #3 has an accrued December net allowable of 74,605 MCF. Please transfer this allowable to the Howell J #3-X.
