(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)			

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Mobil will be flaring at the above mentioned well for approximately 2 days during the week of February 22, 1988. While working to clean up the well, Mobil was shut-in due to low gas demand by the purchaser and flaring is the only alternative to completing the cleanup. When specific dates are identified, BLM-Farmington, New Mexico will be notified. The well was making 40-50 MCF per day. This confirms verbal request made to and verbal approval received from Mr. Steve Mason of the Farmington, New Mexico BLM office on February 19, 1988.
