Dear Mr. Arnold:

Basin Dakota Field

We have received your letter of August 21, 1963, regarding the subject well and the lack of filing a Form 9-330 on this well. This form has not been filed because this well has never been put on production and still has load oil to be recovered. It has been, and still is, shut in pending further evaluation, but should be completed upon initiation of water flood operations in the Central Totah Unit, at which time we intend to file Form 9-330. If you feel that this form is necessary at this time, please advise and we will file same as soon as possible.

Yours very truly,

TENNECO OIL COMPANY
