ALTERING CASING

ABANDONMENT*

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The pumping unit on this well was taken off in 1985, as per our last Sundry Report dated June 4, 1985. The unit has been repaired as of early 1986, but due to oil prices at that time, we couldn't justify re-installing the unit plus pulling and repairing the well.

As soon as we have better and stabilized prices we will do the work and have well back on production.

We are here-by requesting a long term shut in of this well, two to three years, due to economic reasons.
