Mr. James Smith
Southland Royalty Co.
P.O. Box 570
Farmington, NM 87499

Re: Federal PRI #1 O-11-29N-12W

Dear Smitty:

As you will recall, Southland Royalty Co. was directed to repair the casing, or plug and abandoned the referenced well on March 7, 1985. You were granted a 7 day extension to swab test the well for evaluation. As I recall, you swabbed the well for 4 or 5 days and apparently decided it could not be made commercial.

You are hereby directed to initiate remedial or plugging activity within 14 days. Failure to comply will result in a case being called for Southland Royalty Co., and other interested parties to appear and show cause why the Federal PRI #1, should not be plugged and abandoned in accordance with a Division approved plugging program.

If you have any questions, please contact this office.

Yours truly,

Charles Gholson
Oil & Gas Inspector
