Oil and Gas

Assignments of Operating Rights Approved

Approval is hereby granted to the following two assignments of oil and gas operating rights, from the surface down to the base of the Pictured Cliffs formation:

1. Assignment entered into March 9, 1977, by and between the captioned parties. The instrument conveys all of the oil and gas operating rights, as to the depth mentioned above, as to all the lands embraced in oil and gas leases SF 080390 (82-080390) and SF 080390-A (82-080390-A).
2. Assignment entered into September 11, 1977, by and between the captioned parties. The instrument conveys to the assignee all of the oil and gas operating rights, as to the depth shown above, as to all the lands embraced in oil and gas leases NM 02989 (29-002989) and NM 02989-A (29-002989-A).

Thomas A. Dugan and his wife Mary E. Dugan joined in the above mentioned assignments as assignors. Our records do not indicate that Thomas A. or Mary E. Dugan hold any assignable interest in this lease, however, since Dugan Production Corporation holds a 100% interest in the oil and gas operating rights, as to depths indicated, under the four leases, we are approving the assignments assuming Thomas A. and Mary E. Dugan joined in only to convey any interest they may have held.

The lessees, Northwest Production Company, under all four leases maintains New Mexico statewide bond coverage.
