13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

In an endeavor to clarify multiple issues, please be advised of the following:

Our records do not indicate a change of operator from Eastern Petroleum to Chuska Energy, subsequently Harken Southwest (HSW). However, there is a sundry submitted w/Chuska as the operator in 4/89. Henceforth, Harken Southwest Corporation will submit Monthly Report of Operations (MRO) on the subject well, and all MRO's from 8/89 to present will be amended to reflect the 203 well.

Also, some well records reflect the correct well name as Navajo 203, others call the same wellbore with the same legal description as the Rattlesnake 203. HSW prefers the name of Rattlesnake 203.

In addition, this well is currently maintains a status of Shut-in. HSW has no plans to change the current well status in the immediate future.

14. I hereby certify that the foregoing is true and correct
