Farmington, NM 87401

Re: Moore #3A well, located I-04-30N-08W (Basin Fruitland Coal Pool)

Dear Buddy:

The referenced well was blind plated and production equipment removed as was reported in a sundry dated January 20, 1990. Our records indicate that Amoco is still reporting production from this well on form C-115. You are hereby directed to submit amended C-115 reports to correct this error immediately. In addition submit form C-104 correcting the zone name Moore #3A of the Basin Fruitland Coal completion in the well to match the zone name Moore A #3A of the Blanco Mesaverde completion zone in the well. Thank you for your cooperation in this matter.

If you have any questions please contact this office.

Yours truly,

Ernie Busch  
District Geologist
