Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval for an unorthodox well location to be completed in the Mesaverde Zone.

We intend to drill the Northeast Blanco Unit Well No. 5A, located 2160' from the North line and 1140' from the West line of Section 13, T-30-N, R-8-W, N.M.P.M., San Juan County, New Mexico.

This well will be drilled to meet an infill offset obligation to a well drilled by El Paso Natural Gas Company in the SE/4, Section 14, T-30-N, R-8-W, San Juan County, New Mexico.

An onsite inspection was held at the above location on May 6, 1976, by all concerned parties, at which time a verbal agreement was reached that the above location is the most logical drilling sight due to the terrain.

Very truly yours,

BLACKWOOD & NICHOLS COMPANY
