17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

This well was drilled to 705' to test the Dakota formation. A 6-1/4" hole was drilled and the well was determined to be uncommercial. We plan to plug and abandon the well as follows:

1. Spot cement plug from TD 705' to 600'
2. Spot cement plug from 100' to 15'
3. Cut off 7" csg below plug depth and abandon well.
