Farmington, NM 87401

Re: North Hogback 1 #24 G-01-29N-17W

Dear Mr. Crane:

NMOCD field inspection of the referenced well revealed an illegible well sign and an incorrect operator listed on the sign. NMOCD Rule No. 103 states that all production and injection wells shall be identified by a sign, posted not more than 20 feet from such well, and such sign shall be of durable construction and the lettering thereon shall be kept in legible condition and shall be large enough to be legible under normal conditions at a distance of 50 feet. According to our records the current operator is Raymond T. Duncan. Please make the necessary changes and repairs to comply with NMOCD Rule 103.

Copies of annual mechanical integrity tests are enclosed for your reference.

Yours truly,

A handwritten signature in dark ink, appearing to read "Carolyn J. Taplin".
