Navajo Tract 20 #3  
F-31-29N-17W

Dear Mr. Hansing:

The subject well has reached a point in making up its overproduction such that it may produce 1365 barrels of oil this month and it may subsequently produce its full allowable until further notice.

Also, it has come to our attention that the forms C-115's which you are submitting are rather difficult to read, so I have enclosed a form showing the required format for reporting production and injection.

If you have any questions, please call this office.

Yours truly,

Frank T. Chavez  
Deputy Inspector
