The subject well has been replaced by drilling the Com No. 2R. After completion and connection of the Com No. 2R, the Com No. 2 will not be produced. We ask that the C-104 for the Com No. 2R not be held up pending the plugging of the Com No. 2. Dugan Production realizes that the production of both wells concurrently is a violation of existing State regulations. The Com No. 2 will be brought into compliance with pool rules at the appropriate time.
