Re: Sullivan GCC #1-E J-28-29N-10W

Dear Donna:

The enclosed copy of the 1993 Bradenhead Test on the referenced well indicates a casing failure. In order to comply with rule 108, prevent waste and protect fresh water, you are hereby directed to initiate remedial activity as soon as possible.

We received an intent to work on the well in May of 1992 as part of the 1992 Bradenhead remediation program. The work was never performed.

Yours truly

Charles Gholson

Deputy Oil & Gas Inspector
