(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

In response to NMNM-10758(WC) 3162.3-2(7400):

It is requested to extend the test period from November 1, 1996 to December 1, 1996. Due to the recent rains, the location is extremely wet and would require extensive work prior to moving a rig on to test the casing. The extended time period is needed to let the location dry before work is commenced.

14. I hereby certify that the foregoing is true and correct
