13. Describe Proposed or Completed Operations

In August 1992, Meridian recompleted the Cooper #3E (an inactive Dakota wellbore in Section 6 of the same township) to the Gallup formation. Due to line freezes, accurate production data for the Cooper #3E has not been obtained.

Meridian Oil plans to evaluate the productivity of this Gallup step-out to determine if the Gallup reserves are economic to develop in this area. This evaluation will be made by July 15, 1993, at which time Meridian Oil will submit a sundry stating plans to recomplete the Cozzens #6E to the Gallup formation or to plug and abandon the wellbore.
