If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Southland Royalty Company hereby requests a 6-month extension for the drilling of this well.

Original intent to drill states that the well will be completed as a Mesa Verde/Dakota dual, however, more thorough study of offset logs has shown that Mesa Verde is not at all likely capable of production. We plan to complete this well in Dakota zone only.
